

Dear Admitted Student,

Congratulations on your acceptance to the Ground Transportation Department at Vermont State University! As part of this program, you are required to possess a set of tools sufficient to perform your lab responsibilities and your work duties during the internship experience.

A list of required tools is available at www.vermontstate.edu/next-steps. These must be purchased before classes begin. Although we are using Snap On tools as a quote, other brands of tools may be possible. Tool storage is another issue that raises a lot of questions from students. We require that you possess a roll cab or tool cart to hold all of your tools. The size specification is listed on the attached tool list. One issue I wanted to draw to your attention is that if you purchase this roll cab from Snap-on tools, you will not be allowed to purchase another one at the discounted price ever again.

Lastly, you must wear black jeans or work pants and safety toe leather boots/shoes during all labs, or any time you are working in the lab facility. We will provide you with black Vermont State University Auto Tech t-shirts to wear during the labs, as well.

Generally, students will have three labs per week, therefore I suggest purchasing three pairs of pants and we will provide you with three shirts. Cleanliness is a must! Please feel free to contact me with any questions about the tools, storage, clothing or the program in general.

Thank you for choosing Vermont State and I look forward to seeing you in the fall.

Sincerely,

Steve Simpson
Vermont State University
